Landing Page Source Code

20 files / 2,343 source lines / 67 pages

Main page: gallery-app/src/pages/HomePage.tsx and HomePage.css.
Also includes the landing sections, review and shop rails, animated counters,
3D introduction section, navigation, header, footer and supporting helpers.

Shared authentication, data clients, global styling and the reusable 3D renderer
remain dependencies referenced by imports. Their application-wide sources are omitted.

Excluded: other pages, backend code, secrets, migrations, tests and configuration.
Images, video, fonts, dependencies and generated builds are not printed.

Use the linked file index or bookmarks. Source lines are numbered and wrap in full.
Unsupported font glyphs appear as Unicode escapes. This is a source reading copy.
